

Thursday 4 May 2017 | Royce Hotel, Melbourne

AIPIO's theme for 2017, 'Breaking Down the Barriers' will be explored in the Melbourne Seminar. Through plenary speakers and workshops, participants will actively engage in considering the subthemes of effective engagement, technological enablement, and innovative practices. The AIPIO Seminar is a development and networking opportunity for intelligence professionals across sectors.

The speakers in both the plenaries and workshops will address a variety of topics, such as: critical thinking; how intelligence can capitalise on technological change; how technology will impact on intelligence practice moving forward; and information sharing.

Presentations and discussion through the day will explore the challenges and barriers faced by intelligence, how these are currently addressed, and how we can work to break down these barriers in the future.

Speakers

Stephen Evans - Director, Southern Region, Intelligence Support Branch, Department of Immigration and Border Protection

Dr Carl A. Gibson | Director, Executive Impact

Timothy Green | Subject Matter Expert, Global Public Sector - Justice, Law Enforcement and Border Security

Leif Hanlen | Principal Researcher, Technical Business Development, Data61

Suzanne Lockhart | Senior Security Consultant, Jacobs

Karl Mattingly | Chief Executive Officer, Dysrupt Labs

David Maybin | CSC Australia

Samir Mitha | Security Consultant, Jacobs

Dr Tim van Gelder | Melbourne Enterprise Fellow, University of Melbourne
